GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.20.
- The maximum bet per round is \$ 1 500.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- This game has 5 reels and 10 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

Clicking on "Auto" will bring up the Autoplay-dialogue where you can configure the following options before starting the automatic spins:

- The number of rounds you want Autoplay to be active.
- The loss limit at which Autoplay should stop.
- The win limit at which Autoplay should stop after meeting or exceeding it.
- By clicking "OK", you start the automatic spins with the chosen configuration.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- Only the highest win per line is paid.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters.
- Scatter symbols pay regardless of their position.
- Highest win only paid on each selected line and per scatter combination.

RTP Range

- The theoretical RTP (return to player) value for this game is 94.26 %.
- The RTP for the Buy Bonus is 94.00%.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Free Games

- 3 or more Scatter symbols trigger the Free Games.
- During the feature, additional Free Games are awarded when 3 or more Scatter symbols land on the reels.
- Free Games are played using the same bet as the spin which triggered them.
- During Free Games and after the payout of regular symbols, the Special Expanding Symbols may expand to cover all positions on the reel. The Special Expanding Symbols pay like the regular symbols but even on non-adjacent positions on all lines played.
- The Book of Ra symbol is a Wild symbol that substitutes all regular symbols except Special Expanding Symbols.

Buy Bonus

- The Buy Bonus can be activated only during the base game by clicking the Buy Bonus button.
- The Buy Bonus pop-up window shows the total price of the feature.
- Activation of the Buy Bonus guarantees a spin with 3 Scatter symbols. This triggers the Free Games with one randomly selected Special Expanding Symbol.
- The price of this spin is displayed in the Buy Bonus pop-up window and will be deducted from your balance right after the activation.
- The Buy Bonus costs 100x of your current Total Bet.
