

Cash Cascade - 40 Wild Fire 6™

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.20.
- The maximum bet per round is \$ 40.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- This game has 6 reels and 40 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

Clicking on "Auto" will bring up the Autoplay-dialogue where you can configure the following options before starting the automatic spins:

- The number of rounds you want Autoplay to be active.
- The loss limit at which Autoplay should stop.
- The win limit at which Autoplay should stop after meeting or exceeding it.
- By clicking "OK", you start the automatic spins with the chosen configuration.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- The leftmost reel is reel 1, the rightmost reel is reel 6.
- All prizes are for combinations of a kind. All prizes are for combinations left to right, except scatters.
- All prizes are on selected lines, except scatters. Scatter symbols pay at any position on screen.
- Highest win only paid on each selected line and per scatter combination. Scatter wins and line wins are added.
- All wins start on the leftmost reel and are for combinations on adjacent reels.

Bonus Symbols

- The Shamrock (Wild) symbol appears on reels 2, 3, 4 and 5 only.
- The Shamrock (Wild) symbol expands and substitutes for all symbols except Scatter and Coin symbols.
- The Token Coin symbol and Star symbol are both scatter symbols and pay in any position.
- The Star (Scatter) symbol appears on reels 2, 3, 4 and 5 only.

RTP Range

- The theoretical RTP (return to player) value for this game is 94.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Cash Cascade Feature

- 8 or more Coin symbols in view trigger the Cash Cascade Feature.
- The possible values on the Coin symbols depend on the bet and can be: Major, Minor, Mini, 1x, 2x, 3x, 4x, 5x, 10x, 15x, 20x or 25x total bet.
- The Coin symbols in view are held and 3 Cash Spins are awarded.
- Any additional Coin symbol landing during the Cash Cascade Feature is held and resets the remaining Cash Spins back to 3.
- The Cash Cascade Feature ends when no Cash Spins are left or when all 24 Coin symbols have been collected on the reels.
- At the end of the feature all Coin values, bonuses and jackpots in view will be awarded.
- The Major Jackpot amount displayed in the Major Jackpot Meter is awarded at the end of the Cash Cascade Feature, when a Major Jackpot icon appears on a Coin. The same is true for Minor and Mini Bonuses.
- The Major Jackpot can appear only once during the Cash Cascade Feature.
- Play at max bet to win the highest possible jackpot amount.
- The Grand Jackpot amount displayed in the Grand Jackpot Meter is awarded at the end of the Cash Cascade Feature, when all 24 positions are filled with Coins.
- The Token Coin symbols do not count as triggering Coins and therefore do not trigger the Cash Cascade Feature.
- In case the Grand Jackpot and the Major Jackpot are awarded during the Cash Cascade Feature, the displayed amount of the Major Jackpot (base win plus any contribution) is paid out, but only the base win of the Grand Jackpot is paid out, without any contribution.

Jackpots

- 2.0 % of every stake goes directly into the jackpots.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- The amount you are eligible to win will be shown in the jackpot banks.
- When some or all of a jackpot is won, it is reset to the base win for your stake, plus the current total contributions you are eligible to win.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- Subsequent players win the base win for their selected stake, plus any new contributions.
- There is no ceiling value for the jackpots.
- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.

- The jackpots are initially set at the base value of 1000 times the total bet for the Grand Jackpot and 250 times the total bet for the Major Jackpot.
- Each jackpot is the sum of its base win plus the contributions from all players to this jackpot.
- Each progressive jackpot is a prize pool exclusively containing the accumulation of all respective player contributions.
- For each prize combination (progressive and base win prize), the game displays the potential win value equal to the sum of the available progressive jackpot on the current stake plus the base win prize.
- When a progressive jackpot is won, the respective winnings are taken from the progressive jackpot prize pool and awarded to the winning player.
- Any remaining winnings are available for subsequent progressive wins, plus any new contributions.

Gamble

- With your current stake, a maximum of \$ 500.00 can be bet while in the gamble feature.
- For higher wins or during autoplay, the gamble feature is not available.
- The gamble feature is not available after a jackpot win.
