

Diamond Cash™: Almighty Wolf

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.25.
- The maximum bet per round is \$ 125.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- Diamond Cash™: Almighty Wolf has 5 reels and 25 win lines
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

Clicking on "Auto" will bring up the Autoplay-dialogue where you can configure the following options before starting the automatic spins:

- The number of rounds you want Autoplay to be active.
- The loss limit at which Autoplay should stop.
- The win limit at which Autoplay should stop after meeting or exceeding it.
- By clicking "OK", you start the automatic spins with the chosen configuration.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- Reels are counted from left to right, with 1 being the leftmost, and 5 being the rightmost reel.
- Highest win only paid on each selected line and per scatter combination.
- Scatter wins and line wins are added.
- Wild symbols substitute for all symbols except Moon Collect and Diamond to help complete winning combinations.
- Scatter symbols pay regardless of their position.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters.

Bonus Symbols

- The value of all Diamonds on screen combined, will be the value shown on a Moon Collect symbol. This is paid out immediately if the Diamond Cash™ Feature is not triggered or at the end of the Diamond Cash™ Feature if it was part of the feature trigger.
- Moon Collect symbols do not appear in the Diamond Cash™ Feature.
- Moon Collect symbols appear only on reel 5.

- When 5 Diamonds, or substituting Moon Collect symbols, land in view and the feature is not triggered, a free re-spin of all reels is granted with all Diamond and Moon symbols locked in place.
- During the re-spin, only Diamonds and Moon Collect symbols are considered. Win lines are not paid.
- 6 or more scattered Diamonds trigger 3 Free Spins on Diamond Cash™ Feature.

RTP Range

- The theoretical RTP (return to player) value for this game is 95.04 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Diamond Cash™ Feature

- 6 or more scattered Diamonds trigger 3 Free Spins on Diamond Cash™ Feature.
- During Free Spins one or more additional Diamonds appearing will reset the number of remaining Free Spins to 3.
- Each Diamond displays an associated prize.
- Possible prizes are up to 100x total bet, Mini, Minor or Major.
- All Diamond and Moon Collect prizes displayed on screen are paid at the end of the Free Spins.
- The Linked Grand Jackpot amount displayed in the Grand Jackpot Meter is awarded immediately when all 15 positions are filled with Diamond or Moon Collect symbols.
- Major symbols do not appear on Diamond symbols during the base game.
- Mini and Minor prizes are also paid out if the Moon Collect Feature is triggered.
- Mini, Minor and Major icons can appear on gold Diamond symbols and are different representations of it.
- Within the same feature, only one Grand Jackpot or one Major Jackpot can be awarded.

Jackpots

- 1.0 % of every stake goes directly into the jackpots.
- Each jackpot is the sum of its base win plus the contributions from all players to this jackpot.
- The jackpots are initially seeded at \$ 1 000.00/\$ 200.00 (or the equivalent in your account currency if different). When a jackpot is won, it is reset to the seed value.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- Each progressive jackpot is a prize pool exclusively containing the accumulation of all respective player contributions.
- The win values of the Mini and Minor Prizes are displayed above the reels.
- For each prize combination (progressive and base win prize), the game displays the potential win value equal to the sum of the available progressive jackpot on the current stake plus the base win prize.
- When a progressive jackpot is won, the respective winnings are taken from the progressive jackpot prize pool and awarded to the winning player.
- Any remaining winnings are available for subsequent progressive wins, plus any new contributions.

- The amount you are eligible to win will be shown in the jackpot banks.
- When some or all of a jackpot is won, it is reset to the base win for your stake, plus the current total contributions you are eligible to win.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- Subsequent players win the base win for their selected stake, plus any new contributions.
- There is no ceiling value for the jackpots.
- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.

Gamble

- With your current stake, a maximum of \$ 500.00 can be bet while in the gamble feature.
- For higher wins or during autoplay, the gamble feature is not available.
- Any base game wins that coincide with a Diamond Cash™ Feature trigger are part of the feature game win and cannot be gambled.
