

Diamond Cash™: Mighty Sevens WIN WAYS™

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.25.
- The maximum bet per round is \$ 100.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

WIN WAYS™

- This game has 5 reels.
- Each game begins with 2 to 7 active positions on a reel.
- The final number of WIN WAYS™ is a multiplication of all active positions on the reels.
- The number of minimum WIN WAYS™ is 32. The number of maximum WIN WAYS™ is 16807.

Autoplay

- Clicking on "Auto" starts automatic spins.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- The leftmost reel is reel 1, the rightmost reel is reel 5.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected Win Ways combinations, except scatters.
- Highest win only paid on each selected WIN WAYS™ and per scatter combination.
- Scatter wins and WIN WAYS™ are added.
- Diamond symbols either display their prize values or represent a "Mini/Minor/Major Jackpot".
- The possible prize values that can be displayed on the Diamond symbol are 1, 2, 3, 4, 5, 15, 20, or 100 multiplied by the Total Bet.
- Scatter symbols pay regardless of their position.

Bonus Symbols

- The Wild symbol substitutes for all symbols except for Diamond symbols to help complete winning combinations.
- Wild symbols may only appear on reels 2, 3, 4 and 5.
- 6 or more Diamond symbols appearing anywhere on the reels trigger the Diamond Cash™ Feature.

- Blue/Mini/Minor/Major Diamond symbols are different representations of the Diamond symbol and substitute for it.

RTP Range

- The theoretical RTP (return to player) value for this game is 95.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Diamond Cash™ Feature

- The Diamond Cash™ Feature starts with 3 Free Spins.
- Free Spins are played using the same bet as the spin which triggered them.
- The Free Spins counter is reset back to 3 with each new Diamond symbol appearing anywhere on the reels.
- All Diamond symbols are locked in place until the end of the feature.
- Any numeric value on a Diamond symbol will be paid out at the end of the Diamond Cash™ Feature.
- Only Diamond symbols appear during the Diamond Cash™ Feature.
- Mini/Minor/Major Jackpot Diamond symbols appearing anywhere on the reels in the Diamond Cash™ Feature trigger the corresponding jackpot payout at the end of the Diamond Cash™ Feature.
- All positions filled with Diamonds during the Diamond Cash™ Feature trigger the Grand Jackpot.
- Diamond Cash™ Feature wins and Grand Jackpot win are added.
- Within the same feature, only one Grand Jackpot or one Major Jackpot can be awarded.

Jackpots

- 1.0 % of every stake goes directly into the jackpots.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- Each progressive jackpot is a prize pool exclusively containing the accumulation of all respective player contributions.
- For each prize combination (progressive and base win prize), the game displays the potential win value equal to the sum of the available progressive jackpot on the current stake plus the base win prize.
- When a progressive jackpot is won, the respective winnings are taken from the progressive jackpot prize pool and awarded to the winning player.
- Any remaining winnings are available for subsequent progressive wins, plus any new contributions.
- The amount you are eligible to win will be shown in the jackpot banks.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- There is no ceiling value for the jackpots.

- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.

Gamble

- With your current stake, a maximum of \$ 50 000.00 can be bet while in the gamble feature.
- The gamble feature is not available for higher wins.
- During autoplay, the gamble feature is not available.
- The gamble feature is not available after a jackpot win.
- Any base game wins coinciding with a Diamond Cash™ Feature trigger are part of the feature game win and cannot be gambled.
