

Diamond Cash™: Mighty Stampede™

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.25.
- The maximum bet per round is \$ 25.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- This game has 5 reels and 25 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

- Clicking on "Auto" starts automatic spins.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the paytable.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters.
- The leftmost reel is reel 1, the rightmost reel is reel 5.
- Highest win only paid on each selected line and per scatter combination.
- Scatter wins and line wins are added.
- The possible prize values that can be displayed on the Blue Diamond are 0.6, 1, 2, 3, 5, 10, or 50 multiplied by the total bet.

Bonus Symbols

- 6 or more Diamond symbols appearing anywhere on the reels trigger the Diamond Cash™ Feature.
- The Diamond symbols represent scatters.
- The Wild symbol substitutes for all symbols except for scatter symbols to help complete winning combinations.
- Gold Multiplier Diamond symbols may only appear on reel 5 in the base game, but may appear on any reel during the Diamond Cash™ with Multiplier Feature.

RTP Range

- The theoretical RTP (return to player) value for this game is 95.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Diamond Cash™ Feature

- 6 or more Diamond symbols appearing anywhere on the reels trigger the Diamond Cash™ Feature.
- The Diamond Cash™ Feature starts with 3 Free Spins.
- The Diamond Cash™ Feature is played using the same total bet as the spin which triggered it.
- The Free Spins counter is reset back to 3 with each new Diamond symbol appearing anywhere on the reels.
- All Diamond symbols are locked in place until the end of the feature.
- Any numeric value on a Diamond symbol is paid out at the end of the Diamond Cash™ Feature.
- Mini/Minor/Major Jackpot Diamond symbols appearing anywhere on the reels in the Diamond Cash™ Feature trigger the corresponding jackpot payout (at the end of the Diamond Cash™ Feature).
- All 15 positions filled with Diamonds during the Diamond Cash™ Feature triggers the Grand Jackpot, which ends the feature immediately. The Grand Jackpot is awarded in addition to feature winnings.
- Only Diamond symbols appear during the Diamond Cash™ Feature.
- Within the same feature, only one Grand Jackpot or one Major Jackpot can be awarded.

Diamond Cash™ with Multiplier Feature

- The Diamond Cash™ with Multiplier Feature is triggered by landing a Gold Multiplier Diamond on reel 5 in combination with 5 or more Blue Diamonds on the reels.
- During this feature, up to 7 Gold Multiplier Diamonds can be randomly awarded on any reels during the spins and the sum of their values can be up to x30.
- The rules described in Diamond Cash™ section are also applicable for Diamond Cash™ with Multiplier Feature.
- When a Gold Multiplier Diamond lands on the reels, the Multiplier amount is added to the overall Multiplier count (above the reels) and collected in the Multiplier display.
- The Gold Multiplier Diamonds are not locked in place, they disappear after collection, allowing that position the chance to land further Gold Multiplier or Pink Diamonds.
- All Pink Diamonds landing during the spins are locked in place until the end of the feature.
- Any numeric value on a Pink Diamond symbol is paid out at the end of the Diamond Cash™ with Multiplier Feature.
- Gold Diamond Multiplier values can be from x1 to x30.
- Grand and Major Jackpots are not affected by the Multiplier.
- Diamond Cash™ with Multiplier Feature does not award Grand Jackpot in case a Gold Multiplier Diamond lands in the final position. In this situation, Free Spins are reset to 3 and feature continues.

Jackpots

- 1.0 % of every stake goes directly into the jackpots.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- Each progressive jackpot is a prize pool exclusively containing the accumulation of all respective player contributions.
- For each prize combination (progressive and base win prize), the game displays the potential win value equal to the sum of the available progressive jackpot on the current stake plus the base win prize.
- When a progressive jackpot is won, the respective winnings are taken from the progressive jackpot prize pool and awarded to the winning player.
- Any remaining winnings are available for subsequent progressive wins, plus any new contributions.
- The amount you are eligible to win will be shown in the jackpot banks.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- There is no ceiling value for the jackpots.
- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.

Gamble

- With your current stake, a maximum of \$ 500.00 can be bet while in the gamble feature.
- The gamble feature is not available for higher wins.
- During autoplay, the gamble feature is not available.
- The gamble feature is not available after a jackpot win.
- Any base game wins that coincide with a Diamond Cash™ Feature trigger are part of the feature game win and cannot be gambled.
