

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- When you start the game, you enter a lobby where you can choose a machine to play this game. Simply click on "Play now" or a vacant machine to begin playing!
- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.
- In the lobby, you may see other players in the same game sitting at a machine. By clicking such a machine, you are entering "spectator mode" and can watch a different player play. You are not able to influence the game which you are spectating in any way.
- Please choose the amount that you would like to take with you into the game directly after entering it.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.20.
- The maximum bet per round is \$ 5 000.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- This game has 15 reels and 40 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

- Clicking on "Auto" starts automatic spins.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- Highest win only paid on each selected line and per scatter combination.
- Scatter wins and line wins are added.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters.

Bonus Symbols

- The Squirrel symbol is Wild and unlocks nuts and jackpots on the reels.
- The Squirrel is present on the centre position of the grid only and replaces all symbols except locked nuts and locked jackpots.

RTP Range

- The theoretical RTP (return to player) value for this game is 94.55% - 95.13%.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.
- The RTP for the Buy Bonus is 95.13%.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 15 seconds absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Prizes

- Locked nut and locked jackpot symbols appear on all reels except the centre position of the grid.
- Nut symbol values are x0.5, x1.0, x1.5 and multiply the current Total Bet.
- Grand Jackpot value is 1000x base game Total Bet.
- Major Jackpot value is 50x base game Total Bet.
- Minor Jackpot value is 10x base game Total Bet.
- Mini Jackpot value is 5x base game Total Bet.
- In order to win one or more nut and/or jackpot prizes, the Squirrel symbol must be visible on the centre reel in the same game.
- Jackpots are available on all stakes and can be won more than once per game.
- Nut and jackpot wins are added to other wins.

Magic Spin

- At the start of a spin, a Magic Spin may randomly be triggered which stops the centre position of the grid first with the Squirrel symbol in view and then a random number of nuts and/or jackpots appear on the reels.

Magic Rewind

- In the base game, the centre position of the grid may rewind a random number of positions to land on the Squirrel symbol.
- In both the base game and Free Games, with a Squirrel symbol on the centre position of the grid, one or more non-winning symbols may rewind a random number of positions to land on a locked jackpot symbol.
- Both Magic Rewind events may occur in the same game.
- Magic Rewind animations are solely a graphic representation of a predetermined result.

Free Games

- When the Squirrel symbol lands he may add a nut to one or both baskets. Baskets can grow in size and randomly burst.
- Bursting a basket awards 6 Free Games. Both baskets can burst at the same time awarding 12 Free Games.
- Baskets can burst again during Free Games to award additional Free Games.
- Each time a basket triggers Free Games it is reset to its smallest size.

- The Squirrel symbol remains on the centre position of the grid throughout Free Games, and any locked nut and locked jackpot symbols that land are instantly unlocked and awarded.
- The size of the pile of nuts in the baskets is purely an animation and does not affect the actual odds of winning the feature award.
- Free Games are played at trigger bet and lines.

Buy Bonus

- The Buy Bonus can be activated during the base game only.
- Once activated, the reels will spin, a Squirrel will land on the centre position of the grid and at least one of the baskets will pop to trigger Free Games.
- The Buy Bonus is played at 50x base game Total Bet.
- The payable is not affected and pays the same as a game where the Buy Bonus has not been activated.
