

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.50.
- The maximum bet per round is \$ 75.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- Sevens Staxx™ is an Allpays game with 5 reels and 1024 ways to win.

Autoplay

Clicking on "Auto" will bring up the Autoplay-dialogue where you can configure the following options before starting the automatic spins:

- The number of rounds you want Autoplay to be active.
- The loss limit at which Autoplay should stop.
- The win limit at which Autoplay should stop after meeting or exceeding it.
- By clicking "OK", you start the automatic spins with the chosen configuration.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the paytable.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters.
- Line wins are added.
- Highest win is only paid per combination on screen.

Bonus Symbols

- Bonus symbols appear only on reels 1 and 5.
- White Seven symbols appear only on reel 2. Red Seven symbols appear only on reel 3, and Blue Seven symbols appear only on reel 4.
- Reels are numbered left to right, where the leftmost reel is 1 and the rightmost reel is 5.

RTP Range

- The theoretical RTP (return to player) value for this game is 95.16 %.

- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Wheel Feature

- Possible prizes on the Bonus Wheel include: Mini Sevens Staxx Feature, Minor Sevens Staxx Feature, Grand Sevens Staxx Feature, Mini Jackpot, Minor Jackpot, Grand Jackpot, or up to 20x Bet.

Sevens Staxx Features

- A full reel of 4 symbols triggers the corresponding Sevens Staxx Feature, and a chance to win the corresponding jackpot.
- All 4 prizes on the triggering Sevens Staxx reel are added together and merge into one symbol position.
- The reel then expands to reveal a total of 5 unfilled positions.
- 3 respins are initially awarded on the Sevens Staxx reel.
- One or more Sevens Symbol appearing during a Sevens Staxx Feature spin will reset the remaining spins to 3.
- Each additional Sevens Symbol will show a prize value. Prizes can be up to 50x bet.
- A Sevens Staxx Feature is completed when all the respins have been played, or all positions on the reel have been filled.
- All prizes won during the Sevens Staxx Feature will be paid at the conclusion of the feature.
- If all six positions on a Sevens Staxx Reel during the Sevens Staxx Feature are filled, the corresponding jackpot will be awarded.

Gamble

- With your current stake, a maximum of \$ 500.00 can be bet while in the gamble feature.
- For higher wins or during autoplay, the gamble feature is not available.
