GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- When you start the game, you enter a lobby where you can choose a machine to play this game. Simply click on "Play now" or a vacant machine to begin playing!
- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.
- In the lobby, you may see other players in the same game sitting at a machine. By clicking such a machine, you are entering "spectator mode" and can watch a different player play. You are not able to influence the game which you are spectating in any way.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The total bet depends on the selected number of credits and the denomination value.
- The game is played with 10 credits.
- Choose the denomination via the "Total Bet" button.
- The minimum bet per round is \$ 0.20.
- The maximum bet per round is \$ 100.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- This game has 3 reels and 9 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

Clicking on "Auto" will bring up the Autoplay-dialogue where you can configure the following options before starting the automatic spins:

- The number of rounds you want Autoplay to be active.
- The loss limit at which Autoplay should stop.
- The win limit at which Autoplay should stop after meeting or exceeding it.
- By clicking "OK", you start the automatic spins with the chosen configuration.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters.
- Scatter symbols pay at any position on screen.
- Highest win only paid on each selected line and per scatter combination. Scatter wins and line wins are added.
- All prizes are presented in credits except the Grand and Major Jackpot which are presented in the actual currency.

Bonus Symbols

- The Big Win Spinner symbol is a Wild Multiplier.
- The Wild symbol substitutes for all symbols except for Scatter symbols to help complete winning combinations.
- When 1 Big Win Spinner symbol is included on a line win, the win is multiplied by 2.
- When 2 Big Win Spinner symbols are included on a line win, the win is multiplied by 4.
- When the line win is made entirely from Big Win Spinner symbols, the payout is considered according to the payable without activating the multipliers.
- The Wheel symbol is a scatter symbol.
- 3 scattered Wheel symbols trigger Big Win Spinner Feature.

RTP Range

- The theoretical RTP (return to player) value for this game is 95.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Big Win Spinner Feature

- Press the Start button to spin the wheel.
- When the wheel lands on a segment with a numeric value, a win is awarded and the feature ends. This win is calculated as being the numeric value times the selected denomination. This is also valid for the jackpot wheel.
- The possible prize on this wheel is 20x, 30x, 50x or 80x the total bet.
- When the reel lands on the segment with the arrows, you are allowed to spin the jackpot wheel.
- Press the Start button again to spin the jackpot wheel.
- The possible prize on the jackpot wheel is Major Jackpot, Grand Jackpot or 100x the total bet.
- When the wheel lands on the Major or the Grand jackpot segment, the corresponding jackpot is awarded and the feature ends.
- The Big Win Spinner Feature is played with the same denomination as the spin that triggered it.
- The wheel is not an exact visual representation of the odds the player has for each prize.

Jackpots

- 1.5 % of every stake goes directly into the jackpots.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- Each progressive jackpot is a prize pool exclusively containing the accumulation of all respective player contributions.
- For each prize combination (progressive and base win prize), the game displays the potential win value equal to the sum of the available progressive jackpot on the current stake plus the base win prize.
- When a progressive jackpot is won, the respective winnings are taken from the progressive jackpot prize pool and awarded to the winning player.
- Any remaining winnings are available for subsequent progressive wins, plus any new contributions.

- The amount you are eligible to win will be shown in the jackpot banks.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.
- The base win of each jackpot depends on your stake. The base win is 1000 times your stake for the Grand Jackpot, 250 times your stake for the Major Jackpot.
- The Grand Jackpot and The Major Jackpot can only be won in the Big Win Spinner Feature.
