

## Super Scatter X

### GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

#### Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

#### Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.20.
- The maximum bet per round is \$ 20.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

#### Win Lines

- This game has 5 reels and 10 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

#### Autoplay

Clicking on "Auto" will bring up the Autoplay-dialogue where you can configure the following options before starting the automatic spins:

- The loss limit at which Autoplay should stop.
- The number of rounds you want Autoplay to be active.
- By clicking "OK", you start the automatic spins with the chosen configuration.
- The win limit at which Autoplay should stop after meeting or exceeding it.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when a feature is awarded.
- Autoplay stops automatically when the total bet is higher than your current funds.

#### Winnings

- Highest win only paid on each selected line and per scatter combination. Scatter wins and line wins are added.
- Winning combinations and payouts are made according to the paytable.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters. Scatter symbols pay regardless of their position.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.

#### Bonus Symbols

- The Star (scatter) symbol is a Wild symbol and triggers Free Games.
- 3 or more Star (scatter) symbols in view trigger Free Games.
- 3 Star (scatter) symbols in view trigger 10 Free Games.
- 4 Star (scatter) symbols in view trigger 20 Free Games.
- 5 Star (scatter) symbols in view trigger 30 Free Games.
- The Wild symbol substitutes for all symbols except for Scatter symbols to help complete winning combinations.

- When the winning combination is made entirely from Wild symbols, the payout of the highest-paying symbol is considered. The highest-paying symbol can be found in the Paytable.

### RTP Range

- The theoretical RTP (return to player) value for this game is 94.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

### Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

## GAME FEATURES

### Free Games

- At the start of the Free Games feature, one symbol is randomly selected to become the "Special Scatter symbol".
- During Free Games, the Special Scatter symbol pays in any position (scattered).
- During Free Games, the Special Scatter symbol pays 10 times as much as in the base game.
- During Free Games, if the Golden Seven, the Red Seven, the Bell or the Bar symbol is the Special Scatter symbol, 2-of-a-kind wins also pay.
- In that case, Golden Seven pays 10x, Red Seven 5x, Bell 5x and Bar 5x the total bet.
