

Thunder Cash™ - Charming Lady's Boom™ Coins

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.20.
- The maximum bet per round is \$ 50.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- Thunder Cash™ - Charming Lady's Boom™ Coins has 5 reels and 10 win lines in the base game.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

Clicking on "Auto" will bring up the Autoplay-dialogue where you can configure the following options before starting the automatic spins:

- The number of rounds you want Autoplay to be active.
- The loss limit at which Autoplay should stop.
- The win limit at which Autoplay should stop after meeting or exceeding it.
- By clicking "OK", you start the automatic spins with the chosen configuration.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters.
- All wins pay only on lines in play.
- Highest win only paid on each selected line and per scatter combination.
- Scatter wins and line wins are added.
- The BOOM symbol animation and collecting of coins into the ball is purely a visual effect. It does not influence the outcome of the game, does not affect the chance of winning, and does not result in any actual payout.

Bonus Symbols

- Charming Lady is a Wild symbol and substitutes for all symbols, except Scatter symbols.
- Wild symbols double win when substituting.

- 6 or more scattered Boom Bonus symbols trigger the Charming Lady's Boom™ Coins Feature with 6 or more initial Boom Spins respectively.

RTP Range

- The theoretical RTP (return to player) value for this game is 94.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Charming Lady's Boom™ Coins Feature

- 6 or more scattered Boom Bonus symbols trigger the Charming Lady's Boom™ Coins Feature with 6 or more initial Boom Spins respectively.
- Each additional triggering Boom Bonus symbol awards an additional initial Boom Spin.
- Boom Spins are played on 7 reels with 5 individual spinning positions each.
- Reels are counted from left to right, with 1 being the leftmost and 5 being the rightmost reel in the base game, and 7 being the rightmost reel in the Feature.
- The Charming Lady's Boom™ Coins Feature starts with 2 Boom Pay symbols on reels 3 and 5.
- During the Charming Lady's Boom™ Coins Feature if any symbols appear, they will be held and converted to the Lady symbol and automatically recombined in order to ensure the best Boom Pays possible.
- Each position can only be part of one Boom Pay.
- Each +1 Spin and +3 Spins symbol appearing on the reels awards the respective amount of extra Boom Spins to the player.
- During the Charming Lady's Boom™ Coins Feature, it is possible to win either the Grand or Major Jackpot only once. It is not possible to win both (Grand and Major) jackpots during the same Feature. However, it is possible to win the Minor and Mini jackpots each up to 3 times per Feature.
- The Grand Jackpot is won when the player gets 3 Grand symbols during one Feature. The Major Jackpot is won when the player gets 3 Major symbols during one Feature.
- The Feature is completed when either no Boom Spins remain or when all 35 positions are covered.
- At the end of the Feature all Boom Pays are summed up and paid to the player.

Jackpots

- 0.95 % of every stake goes directly into the jackpots.
- Each progressive jackpot is a prize pool exclusively containing the accumulation of all respective player contributions.
- For each prize combination (progressive and base win prize), the game displays the potential win value equal to the sum of the available progressive jackpot on the current stake plus the base win prize.
- When a progressive jackpot is won, the respective winnings are taken from the progressive jackpot prize pool and awarded to the winning player.
- Any remaining winnings are available for subsequent progressive wins, plus any new contributions.

- The amount you are eligible to win will be shown in the jackpot banks.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.
- The jackpots are initially set at the base value of \$ 2 500.00 / \$ 15 000.00 (or the equivalent in your account currency if different). When a jackpot is won, it is reset to the base value.
