

Wheeler Dealer

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.20.
- The maximum bet per round is \$ 2 000.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- This game has 5 reels and 20 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

Clicking on "Auto" will bring up the Autoplay-dialogue where you can configure the following options before starting the automatic spins:

- The number of rounds you want Autoplay to be active.
- The loss limit at which Autoplay should stop.
- The win limit at which Autoplay should stop after meeting or exceeding it.
- By clicking "OK", you start the automatic spins with the chosen configuration.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a Wheeler Dealer Bonus is awarded.

Winnings

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- The leftmost reel is reel 1, the rightmost reel is reel 5.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except scatters.
- Highest win only paid on each selected line and per scatter combination. Scatter wins and line wins are added.

Bonus Symbols

- The Wheeler Dealer symbol can only appear on reel 5 and represents a Scatter.
- Only one Wheeler Dealer symbol can appear per spin.
- The possible coin values are 0.5, 1, 2, 3, 4, 5, 10, 20, 25, and 50, multiplied by the Total Bet.
- The Wild symbol substitutes for all symbols except the Scatter symbol to help complete winning combinations.

RTP Range

- The theoretical RTP (return to player) value for this game is 94.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

GAME FEATURES

Wheeler Dealer

- During the base game, when any number of coins and a Wheeler Dealer symbol land within the same spin, Dodgy Dave spins the wheel beside the reels.
- The possible wheel outcomes are:
 - 1x: pay the current values of the coins.
 - 2x: multiply the value of all coins on the reel set by 2.
 - 3x: multiply the value of all coins on the reel set by 3.
- Bonus: trigger the Wheeler Dealer Bonus.
- The wheel is not an exact visual representation of the odds the player has for each prize.
- If the Wheeler Dealer Bonus is triggered, the values of all coins from the triggering spin are carried over and displayed on the Winnings board in the Wheeler Dealer Bonus.
- In the base game, when coins land without a Wheeler Dealer symbol, they are collected into the Coin Pot, which can randomly trigger the Wheeler Dealer Bonus.
- If a Wheeler Dealer symbol lands without any coins on the reel set, the wheel is not spun. This, however, does not apply to the round when the Buy Bonus feature is triggered.
- Dodgy Dave may nudge or re-spin the wheel for a better wheel outcome. This can happen during the base game or feature game.

Wheeler Dealer Bonus

- The Wheeler Dealer Bonus starts with the award of 3 Free Games.
- The Free Games reset to 3 whenever a Wheeler Dealer symbol lands on an unlocked reel.
- Any coins or Wheeler Dealer symbols landing on locked reels do not pay, do not trigger the wheel, and do not reset the Free Games.
- When any number of coins and the Wheeler Dealer symbol land within the same spin on unlocked reels, Dodgy Dave spins the wheel.
- The possible wheel outcomes are:
 - 1x: pay the current values of the coins.
 - 2x: multiply the value of all coins on the reel set by 2.
 - 3x: multiply the value of all coins on the reel set by 3.
- Key: unlock the leftmost locked reel and collect any coin values on unlocked reels.
- If all five locked reels are already unlocked, the Key segment is replaced by a 1x segment on the wheel.
- Any collected coin values are shown on the Winnings board.
- If three consecutive spins pass without a Wheeler Dealer symbol landing on an unlocked reel, the Wheeler Dealer Bonus ends.
- The player is paid the amount shown on the Winnings board. Any remaining coin values on the reels are not paid.
- Coins that land on unlocked reels without a Wheeler Dealer symbol are not paid.

- The Coins are not held in position from one spin to another during the Wheeler Dealer Bonus.
- Free Games are played using the same bet as the spin which triggered them.

Buy Bonus

- The game has three Buy Bonus options:
- 'A Flutter' costs 100x Total Bet. The player enters the Wheeler Dealer Bonus with all five of the upper reels locked.
- 'A Dabble' costs 150x Total Bet. The player enters the Wheeler Dealer Bonus with one to five of the upper reels randomly unlocked.
- 'A Punt' costs 200x Total Bet. The player enters the Wheeler Dealer Bonus with all five upper reels unlocked.
- The Wheeler Dealer symbol spins the wheel without coins on the reel only when triggering the Buy Bonus feature. This spin will always award the Bonus segment on the wheel.

Gamble

- With your current stake, a maximum of \$ 500.00 can be bet while in the gamble feature.
- For higher wins or during autoplay, the gamble feature is not available.
- Wheeler Dealer Bonus winnings cannot be gambled.
- Any base game wins that coincide with a Wheeler Dealer Bonus trigger are part of the feature game win and cannot be gambled.
